Guiding Weaving Restoring

Building Foundations of Excellence for the Fatherless

The CAN Standard *Summer 2011*

New Website

CAN is pleased to announce its redesigned website! Check it out at: www.cornerstoneCAN.org

The new website plays four vital roles for our organization:

- to inform the mission, vision and goals of CAN
- to promote CAN's programs and services to its members
- to advocate and create awareness for the Fatherless through informative blogs, articles, and books
- to further CAN's programs of sustainability (consultCAN, MedCAN)

You can now order medical equipment and supplies directly from the MedCAN web store. Check back often as we are constantly uploading new items and have *thousands* still to go!

Your purchases affect the lives of the Fatherless through medical services, advocacy, and material support.

You can also follow us on Facebook and Twitter through our new website.

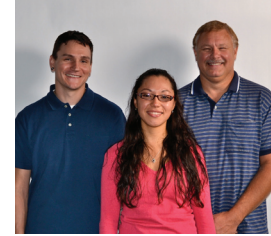

We would like to thank everyone who has been a part of the building process, especially our web developer, Tom Reitz of Reitz Internet.

CAN Welcomes New Staff

While MedCAN was developed as a method of sustainability for CAN's mission and vision, the size and complexity of the program demanded increased and consistent attention.

In mid-May, CAN welcomed three new staff to its team. The new staff is dedicated 100% to MedCAN—from cataloging and organizing the contents of the warehouse to logistics in warehouse flow and sales.

With backgrounds in business management and development, as well as warehouse operations and supply chain management, the team is of tremendous help as we pursue this multi-fold program of sustainability, advocacy and aid.

Recycling With A Greater Purpose

MedCAN Rep in Honduras

CAN is very fortunate to be working with Mayra Bustillo, native of Comayagua, Honduras to promote MedCAN.

Mayra has spent her life working with the Honduran government to improve the lives of the Fatherless through adoptions or placements in residential care. Prior to coming on board with CAN, Mayra also helped many children in need through her participation in organizing and hosting medical missions.

Through her continual efforts, CAN's mission of advocating for the Fatherless is spreading throughout Honduras. Mayra's efforts to promote MedCAN, has led to multiple hospitals and clinics in Honduras receiving needed equipment and supplies.

Children to Receive Medical Care

As a direct result of CAN's efforts through MedCAN, client, and now partner, Dr. Yubini Ochoa of Honduras has pledged to perform up to 10 free surgeries per month for the Fatherless and disadvantaged children in his clinic in Comayagua, Honduras. Dr. Ochoa is a general surgeon.

Knowing he receives the medical equipment and supplies at a great discount, he was moved to offer his talents to improve the lives of children who may otherwise go without needed medical care. We deeply thank you, Dr. Ochoa.

It is exciting and promising to see how well MedCAN furthers CAN's mission to help the Fatherless!

CAN Needs:

- Volunteer Graphic Designer
- IT Support

MedCAN Needs:

- Volunteers (sorting, inventory control, pick ups, cleaning, photography, biomed)
- Pallet Racking Uprights (\$65/u)
- Pallet Racking Beams (\$11/u)
